

TRIAD HEALTH PLAN

Whether you're running a small business, managing a team of contractors, or working for yourself, you deserve access to quality health coverage that fits the way you actually work.

A Smarter Option for Small Businesses

Affordable coverage designed for businesses with 1–9 employees, including sole proprietors and 1099s.

At Worksite, we understand that one size never fits all—especially when it comes to health insurance. Many small businesses find that traditional major medical plans are expensive, restrictive, or simply out of reach. That's why we're proud to offer an alternative health plan option built specifically for small employers, independent contractors, and entrepreneurs who need dependable coverage that won't break the bank.

This flexible, major medical alternative delivers the benefits of nationwide coverage, multiple plan designs, and straightforward administration—all with personalized pricing based on your team's real needs.

What Makes This Health Plan Different

Eligible for 1–9 employees, including sole proprietors and 1099s

Quick online health questionnaire

Choose Cigna or PHCS with the largest independent PPO network in the U.S.
